

XML and PDF instructions

The information on these pages is an addition to Brill's general XML-instructions that are available at the gitlab site: <https://brillpublishers.gitlab.io/jats-and-bits/>. The information provided concentrates on special cases, do's and don'ts, etc. A distinction is made in general instructions both for books and journals, instructions for journals only and instructions for books.

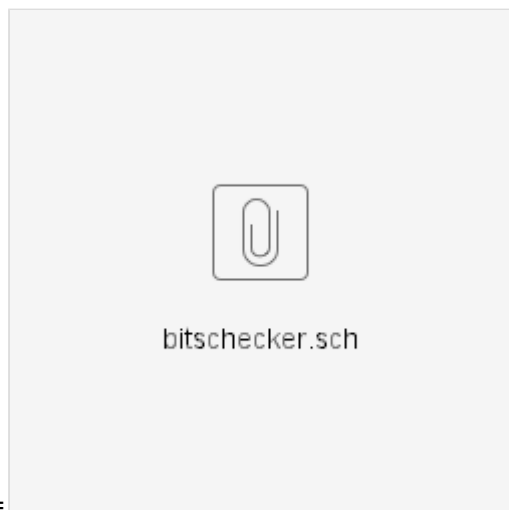

General	Journals	Books
Multiple subtitle lines	JATS instructions	BITS instructions
Hyperlinks in PDF	Front and Back matter in journal issues	Empty Part - pages
Regular issues / Points of attention	Article dates in XML and PDF	Series Metadata
Contributor email address	Special issue	Book Metadata
Access options Free, Open, Paid and Gratis	Journal metadata	Front matter
Non-Latin Scripts	Continuous Article Publishing	DOI structure for Books
References in PDF and XML based on DOI's	Free access to specific parts	Titles without chapters
	Article permissions	
	Supplementary material
